

Upskilling and reskilling – preparing the workforce for tomorrow

Frank Heemskerk

Secretary General of the European Round Table
for Industry (ERT)

Transforming the eco systems...

Less than 1% (!)
of trainings
measure
job placement,
if so, rates are
often low

Reskilling
programs are
small-scale,
and mostly only
in a single
country

Many locations
have no E2E
reskilling
solution

End-to-End (E2E):

*Reskilling based on an
individual's current skills set and
directed towards a defined new
occupation or job opportunity*

...to effectively reskill people

R4E

Re-skilling 4
Employment

**A pan-European,
cross-sectoral,
end-to-end (E2E)
reskilling initiative**
(pilots in Portugal, Spain, Sweden)

1) Unlock the reskilling eco systems

2) Enable reskilling 1M+ people in Europe

3) Focus on unemployed and jobs "at-risk"
